Lincoln Laboratory SkillBridge Program Application

Lincoln Laboratory is an authorized provider organization for SkillBridge, a Department of Defense program connecting active-duty service members with internships, apprenticeships, and job/employment skills training in civilian career areas. The program is designed to help service members transition to civilian employment once their military duty ends. Service members participating in SkillBridge receive their military compensation and benefits, and Lincoln Laboratory provides training and work experience. Potential SkillBridge program participation must be within 180 days of release from active duty.
